The Chief's legal counsel and I spoke. Is this mostly a problem in Dorchester or everywhere in the BMC?

Hi Christina,

Any chance that our chemists can bring their cell phones into the courthouses? See Betsy's note below.

Thanks, Julie

**Subject:** cell phones

Hi Julie,

It has been brought to my attention by Annie that it has been extremely inconvenient to be unable to bring her cell phone with her to the Suffolk County district courts. As she is usually on call for other courts she can't check her messages when her car is parked blocks down the street, etc. She has had to borrow phones from either one of the cops or today, the ADA. Is there a way to inquire about a way to work around this? I should think with our ID cards we could be allowed this privilege and bring them in like the police officers do..... can we ask Christina Miller for guidance on this issue?

Thanks,

Betsy
